## CHAPTER OF CRIMES.

Blood-Curdling Tragedies at Many Different Places.

UNUSUAL NUMBER RECORDED.

A Negro Kills Two People and Wounds Three Others—Double Tragedy on the Steps of a Church—An Old Man Murdered For His Money—Wife Killed by Her Husband—Other Crimes.

JACKSONVILLE, Fla., April 8.—Alexander Simms, alias Brit, Glenn, alias Kid Charlie, a negro, added another victim to his list of killed yesterday, besides wounding three others. Simms shot and killed a young colored boy named Napoleon Stuks Saturday night.

The officers got on his trail yesterday morning and chased him about two miles to a barn in the eastern part of the city. When Simms saw he was discovered he opened fire with a pistol at the officers. They returned the fire, but as the negro could shoot without exposing his body, they were unable to hit him. During the firing Policeman Minor was shot in the breast and killed almost instantly. Lieutenant Minor, his brother, was shot in the left leg. Two negroes, who had joined in chasing Simms, were shot in the hip, one, it is thought, from a kick. No money was found on the premises.

Simms fired 17 shots and offered to give himself up if the lieutenant would consent not to kill him. This was agreed to and he gave up his revolver and came down. A crowd gathered on the outside and wanted to lynch him at once, but the officer hustled his prisoner off to jail. As soon as the affair became noised about, a large crowd congregated at the jail, and threats of lynching were frequent.

Finally it was announced that Simms would be taken to the county jail for safekeeping, but instead the sheriff put him aboard a train for St. Augustine, where he was placed in jail. Had he remained in this city nothing would have saved him from lynching except state troops, so intense is the feeling against him.

### WIFE MURDERED.

Her Husband Suspected of Committing the Foul Deed.

PITTSBURGH, Pa., April 8.—The village of Hamtown, near this city, is excited over what appears to be a sensational wife murder. Mrs. George Windish, about 56 years old, was found dead yesterday in a clothes closet in the second story of her home. There were wounds on the side of the head, and the skull had been fractured. Near the body was found a bloody chisel, and on the floor of the room lay several pieces of clothing saturated with blood. These were identified as having belonged to the woman's husband, who is missing.

It is supposed that the murder occurred last Thursday night, as the couple had not been seen since that time. Their three children remained in the house but could give no satisfactory answers as to the whereabouts of their parents. A search was made yesterday and the body found. Suspicion is strongly directed against the husband. It has been generally known that the couple's married life was unpleasant, and neighbors assert that Windish had recently threatened to kill his wife. This theory is supported by the statement that two weeks ago Windish tried to raise money on his property, stating that he was going to leave his wife. There is no clew to his whereabouts.

### TRAGEDY ON A CHURCH STEP.

A Man Kills His Wife and Then Ends His Own Existence.

WICHITA, Kan., April 8.—A horrible tragedy occurred on the steps of the Lincoln Street Christian church as the congregation was walking out of the church after the services were over, about noon yesterday. On the sidewalk, in front of the church, Walter Scott fired a bullet into the brain of his wife, and she fell at his feet a corpse.

While the people stood aghast at the terrible deed Scott placed the muzzle of the revolver in his mouth and sent a bullet crashing through the roof of his mouth into his brain and he fell dead almost within reach of the remains of his wife. At the sight of the bloody tragedy two or three women fainted and much excitement prevailed. Both bodies were taken to an undertaker. When Mrs. Scott was shot she was walking out of the church with her brother.

Mr. and Mrs. Scott were married about two years ago. She was 17 and he 19. They separated about a year ago, she going to her father's house and he going to Kansas City. Scott returned to Wichita a week ago. He went to church yesterday, and as he walked out asked his wife if she would return to him, and upon her refusal, sent a bullet into her brain. Both are well connected.

### ONE BLOW OF THE FIST.

A House Painter Killed by His Father-in-Law.

LAPORTE, Ind., April 8.—A murder was committed here at an early hour Sunday morning, the victim being Henry Fahrenheim, a house painter, about 25 years old, whose death resulted from a single blow of his father-in-law's fist.

Fahrenheim had for a long time terrorized his young wife, being especially abusive when drinking, and she as well as her father's family stood in deadly fear of him. About 1 o'clock Sunday morning, while intoxicated, he went to his home, where both families live in a double house. He at once commenced to abuse his wife and finally

choked her. Her screams awakened her father, Jacob Ott, and as he entered the door she warned him to be careful as her husband was armed with a hammer.

Without further ado Ott struck him a powerful blow in the head with his fist, knocking him senseless. He soon revived, however, but commenced to spit blood, and his death ensued about an hour later. Ott voluntarily surrendered himself to the officers and was locked up. Young Fahrenheim's brother was killed here a few years ago by being stabbed while engaged in a midnight row.

### MURDERED FOR MONEY.

An Old German Found Dead on the Floor of His Room.

ALTOONA, Pa., April 8.—Henry Bonneka, an aged German, who lived alone in the western part of the city, was found dead on the floor of his room yesterday. There was a wound on the back of his head, evidently made by a blunt instrument; a sheet was found tied tightly around his neck, and a knotted handkerchief was fastened in his mouth. There was also a wound on the lip.

Bonneka, who was a bachelor, had not been seen since last Thursday, and it is supposed that he was murdered that night. The gag in his mouth would indicate that an attempt had been made to rob him without bloodshed, and the theory of the police is that he resisted the attack and was then killed. The injury on the head may have resulted from a kick. No money was found on the premises.

### Cowardly Crime in Kentucky.

LEXINGTON, Ky., April 8.—Will Shipp of Woodford county murdered Samuel Brown, colored, here at 10 o'clock last night by shooting him in the head with a pistol. Shipp had been enmired of Brown's wife, and going to Brown's house last night he found Brown there and shot him. Brown was unarmed. As Shipp was making his way down the steps he met Brown's wife and with drawn revolver threatened to kill her also. Shipp escaped but the police are after him. Brown had been in the employ of B. J. Treacy, the horseman.

### Constable Shot by a Negro.

FLORENCE, Ala., April 8.—James Foster, a constable at Rodgersville, was shot and instantly killed at midnight last night by a negro named Will Brown. Foster, with three deputy constables, went to Brown's house for the alleged purpose of arresting him on the charge of stealing chickens. Brown met them at the door with his gun and shot Foster dead. Brown then escaped.

### BATTLE IN INDIA.

British Troops March on the Natives, Killing Over Hundred.

SELA, April 8.—The First brigade of the British force, moving to the relief of Mr. Robertson, the British agent at Chitral, has had an engagement with 5,000 Swats, who were trying to block the Malakand pass. The enemy were but to fight after losing 30 killed by a charge of cavalry. The British loss was one killed and one wounded.

The enemy stoutly resisted the British attempts to throw pontoons across the Swat river at Alladand. The Swats occupied the heights commanding the river, and kept up an ineffectual fire on the engineers and others employed in placing the pontoons in position. Umra Khan's brother was present with a large number of cavalry and infantry.

Brigadier General Waterfield's brigade, with the Fifteenth Sikh regiment, advanced and forced a passage of the river, assisted by a mountain battery and a Maxim gun. Then the Eleventh Bengal lancers made a brilliant dash and crossed the river. They at once attacked the enemy, who retreated. The lancers pursued them to Uck, killing 100 of them.

The Fourth and Fifteenth Sikh regiments then crossed the river at a point a mile distant from where the pontoon bridge was placed, and captured Thana with little trouble. The British loss was one sapper and a few other men killed. A number of horses were also killed.

One thousand camels with the transport train have succeeded in crossing the Malakand pass, and have arrived at Khar.

The British troops are now at Khar, in Swat, where it is awaiting the organization of a transport service.

A considerable number of fanatics from Upper Swat have joined Umra Khan of Jandol, who is leading the forces against the British, and a big fight is expected.

### PUT A BULLET THROUGH HIS HEART.

A Young Man Kills Himself Because He Could Not Resist Liquor.

DETROIT, April 8.—The dead body of a well-dressed young man with a bullet hole through his heart was found on Corcoran avenue yesterday afternoon. The man arrived last Wednesday, stopping at the Cadillac. A note in his pocket, signed W. F. Hillman, told that he was traveling auditor of the Buckeye Supply company, and was a son of the president of the company. In a note to his father the young man wrote that his life was a failure, that he could not resist liquor.

It was learned that he brought with him to this city a young woman whom he placed in the house of the Good Shepherd. Her name is Minnie Corey. She is from Cleveland and is about 17 years old. When seen she admitted she came here with Hillman and said they were to be married. The dead man is from Toledo.

MERRILL, Wis., April 8.—Mrs. John Coley and her 3-year-old child were burned to death by being enveloped by the flames from a pot of pitch which she was boiling for gum.

## LATE EVENTS IN CUBA

Steamer Mascotte Arrives Direct From Havana.

### STILL ANOTHER BATTLE FOUGHT.

One Thousand Spanish Troops Go Forth to Attack the Rebels and but Six Hundred and Eighty Return—The Insurgents Confident of Final Victory—A Different Report Comes From Spain.

TAMPA, Fla., April 8.—A large number of passengers arrived by the steamer Mascotte yesterday evening from Havana. From them the details of late events in connection with the revolution were obtained.

Among the arrived passengers is a merchant of Hayti, who disembarked at Santiago do Cuba, where he remained two days. He saw much of the Spanish troops camped and arriving at Santiago. He states that they are mostly wretched appearing, many being boys, some scarce able to carry a gun. This merchant says that while he was there it was reported that the rebels were about to attack the outskirts of the town, and a thousand newly-arrived Spanish troops were led out to meet the rebels. The encounter occurred near the city, and only 680 of the thousand troops returned therefrom. Three hundred and twenty were killed, wounded or captured by the rebels. No news of the engagement had been given out by the Havana authorities up to Saturday last, nor was it referred to by arriving insurrectionists.

A Cuban passenger makes the statement that an effort was made last Wednesday night to plunge Havana into darkness by cutting the electric light wires at the central lighting station in the next building to which was stored a quantity of powder. The wire cutting attempts were surprised by the soldiers and police during their preparations and were obliged to flee.

Kerosene cans, well filled, and other incendiary material were found where the attempts had been working near the powder storage. The supposition is that when the city became dark, the powder was to be exploded and other insurrectionary acts accomplished.

During the two hours' stoppage of the steamer at Key West, the Havana passengers learned of the belief among Key West sympathizers that a plan was afoot to assassinate Martinez Campos on his arrival at Havana. This plan was being marred on the assumption that Campos will land at Havana on his arrival, about the 15th inst. He will not do so, however, as he will first touch Puerto Rico. A full statement of the affairs on the Island of Cuba will be sent to Puerto Rico by government officials, who will await Campos, and from thence he will determine at what point in Cuba he will land. He will probably disembark at Santiago de Cuba, where he will establish headquarters and begin campaign.

Another Cuban passenger from the eastern end of the island who is in close touch with occurrences in the disturbed districts and who is advised of the plans of the rebel leaders in whose behalf he journeys, states that Maceo and his party is much larger than believed. He says the schooner Honora, which landed here, was filled with arms and ammunition. Cubans make the statement that Maceo and his party landed on March 27 instead of 31, as given out by the government officials at Havana. Captain Periquito Perez also has joined the Cuban cause. He is a nephew of the Spanish general known as the Tiger.

It is further stated by the informant that Maceo, who sailed in a steamer from Coro to Furtuno island, had been here two or three weeks before landing in Cuba awaiting the schooner Honora, which had received \$4,000 prepay for the undertaking. The informant, therefore, denounces the government announcement that the captain of the Honora was killed by the rebels to escape the payment as an effort to deter other captains from undertaking a like service.

Three hundred Spanish troops endeavored to prevent Maceo's landing, but his comrades were numerous enough to withstand the troops.

A rebel emissary who has arrived here the plan of apportionment of most of the notable rebel leaders is stated thus: Chief Antonio Maceo will proceed to the province of Santiago, Rafael Rodriguez to Caucagua, of which Puerto de Principe is the capital, and Maximino Gomez, when he arrives, if he has not already done so, from Santo Domingo, will rally the rebels at Las Villas. It is expected that various sections will rise on the arrival of these leaders.

A general centralization and contest will follow. The fight will not occur until the rains and fever come to aid the rebel armies.

This authority states that between 7,000 and 8,000 are with arms now.

George W. Aguirre, nephew of the Cuban General Aguirre, who is confined at Havana with Sanguily, arrived by last night's steamer. He goes to New York and Washington to urge recognition for the release of his uncle against whom he claims there is no evidence of any character.

### A WAITING CAMPAIGN.

Such is the Program of the Cuban Insurrectionists.

HAVANA, April 8.—Special correspondence of the Associated Press.—There is keen anticipation now among the Cubans and will be for some days to come.

General Martinez Campos, with a couple of million dollars in cash, a lot of troops and a large personal prestige, is now on the ocean and bound for Spain. Great will be the day and large the oc-

casions when Campos again sets foot on Cuban soil, to put down another rebellion. The people here are expecting him and anticipate with anxious interest his coming.

A number, however, the interest among unacquainted people seems to arise more from anticipation of the pageant and the elation of bright metal than from any consciousness that Campos is needed here. Havana, always accustomed to military, has not been vividly impressed by the landing of troops from Spain. The repression of the Havana papers results in ignorance of details, if not of facts, from the eastern districts; and so, while the people look on and are interested in the show before them, they feel they have no personal part in the matter, and are indeed quite content to leave all fatigue of activity to those who must act.

Meanwhile, during the week there will be lesser diversions furnished by the arrival of about 2,000 more Spanish troops.

At any moment now the steamer San Ignacio de Loyola, from Cadiz, with 1,145 men, and the Ciudad de Santander, from Coruna, with 845 men, may enter the harbor. The Spanish cruiser Sanchez Barreto entered the harbor here yesterday and left to-day. She is hovering along the coast.

The utmost vigilance is exercised by the government to prevent the landing in Cuba of the rebel leaders who are in other parts.

The government especially and definitely desires to intercept Maceo, whom the officials profess to believe has not effected a landing on Cuban soil. There is private information in this city, however, that Maceo is now on the island, and that the other leaders will come later. This Cuban negro, Maceo—veteran of the last rebellion—is said to be an able man, a shrewd tactician in the chapparel and indubitably brave. He is to the official house here the beggar man of the insurrection.

All the movements of the rebels make proof that the plan announced in these dispatches as the one laid out by their leaders is being consistently followed. Their's is a waiting campaign. They appear and disappear. They make a sortie against some village and, if troops appear, they hustle away out of sight. They have alarmed the inhabitants and they have harassed the troops whose officers then telegraphs the governor general that his men bravely made a "group" (that is, the governmental designation of rebel forces) and routed the enemy who "ran away"—another technical designation of disappearance of rebels.

It is a fact that there are on this island and today between 5,000 and 6,000 rebels who have rifles and cartridges with them in their reach. The government may scout this statement, but it holds. And the plan of campaign is to wait. The leaders know better than to openly oppose their 5,000 or 6,000 men against superior forces, when climate and sickness are relied upon as allies a little later on.

"Why don't the rebels pitch in and do something before all the Spanish troops reach here?" is a question asked by opponents of the rebellion here. The answer is that while engaging the forces now here the rebels would suffer losses not to be rapidly mended and upon their weakened force would be constantly coming more fresh troops from Spain.

"Let Spain get here all she intends to send, and then we will play hide and seek with them until, aided by climatic conditions, we can combine all our forces and strike a decisive blow at the sickening and climate-worn forces of Spain." That is about the reply the insurrectionists would make to criticism of their lack of aggressive activity.

Already the government troops are scouring through Manzanillo, and Colonel Santocildes has just telegraphed the governor here what action shall be taken in the event of the rebels in big or little groups desiring to surrender. Clearly Santocildes expects successes to his army. Troops are being sent to guard the plantations. The government has removed the duty of 30 cents hitherto imposed for the vice of foreign passengers. The reason is not stated.

### FROM A SPANISH SOURCE.

The Rebellion Exaggerated by Local Authorities in Cuba.

MADRID, April 8.—The Cuban home rule party here has issued a manifesto condemning the rebellion in Cuba, expressing loyalty to Spain and preferring assistance to crush the rising.

The latest official dispatches received here declare that the rebellion is exaggerated by the local authorities in Cuba, inasmuch as it is confined to mulattoes and negroes, who have failed to extend their operations beyond the eastern province. Marshal de Campos, who has started to assume command in Cuba, hopes to return to Spain in November.

### Disquieting.

MADRID, April 8.—The news received here that bands of insurgents have appeared in the centro of the Island of Cuba is disquieting, as it was thought that the rebellion was confined to the eastern coast.

### Hailstorms in Georgia.

ATHENS, Ga., April 8.—This section of Georgia was visited by two destructive hailstorms within the past 24 hours. Hailstones as large as hen eggs descended and wrought great damage to fruit and garden plants. The rain fell heavily and was accompanied by a strong wind. Particulars as to the true extent of the damage are meager, but it is thought the storm will prove to be one of the worst that has occurred in years.

### Showers; cooler weather.

If a tramp strikes Henderson, Ky., now, he is put to work on the streets. A excellent plan for other cities to adopt. "Tomists" will steer clear of all cities who do this.

CONNECTICUT elected a Republican Governor last year and now a deficiency of \$60,000 stares her State Treasury in the face, says an exchange. This will call for an increase in taxes, and Republicans are good at that.

BROTHERS MORFORD & YOUNG are to be congratulated on the fine start they have made with their new paper The Brooksville Review. It is a newsy paper, neatly gotten up, and is well patronized by the advertisers.

PEOPLE who delight in denouncing Democratic "snivil service" as they call it can get little consolation from the vote on the question in Chicago last week. The Windy City voted in favor of it by a majority of nearly 50,000.

A LIVELY kick is being instituted by Republican journals throughout the South because of the emigration of the negroes of that part of the country to Liberia, for when the colored voters of the South shall have moved out the Republican party of those States will not be able to cast a shadow.—West Union (O.) Defender.

Well, you know some Republicans imagine their party has a mortgage on the colored people, especially the voters.

### THE TURNPIKE QUESTION.

In last Thursday's BULLETIN a prominent farmer writing on the turnpike question intimated that the interests in the Mason and Bracken, the Maysville and Lexington, the Maysville and Mt. Sterling, the Maysville and Mt. Carmel and the Mason and Lewis, exclusive of that owned by the State, county and city, could be secured for \$80,000.

The plan of parallel roads adopted by the Fiscal Court will, according to Squire Bramel's figures, cost the county \$60,000.

Would it not be a wise move on the part of the Fiscal Court to appoint a committee to confer with the turnpike companies named, and see whether they are willing to sell their interests, and, if so, ascertain just how much it will cost to secure control of these roads?

If there is not such a great difference in the price of these five thoroughfares and the cost of the contemplated parallel roads, then we believe the tax-payers would prefer these old and well built roads. And it would undoubtedly be to the interests of the county to take them.

It is not too late for the court to at least ascertain what it would cost to secure control of these five thoroughfares and make them free, and it would be a wise move to do so.

### APRIL ELECTIONS.

Results Generally Favorable to the Democracy.

[Georgetown (O.) News-Democrat.]

The elections throughout Ohio, Monday, resulted generally in favor of the Democracy.

Republican papers say the result, as a whole, is "mixed."

Defiance, for many years Republican, flies to Democracy.

Bellaire, one of the manufacturing centers of Ohio, does likewise.

Hamilton for the first time in twenty years is Democratic throughout.

Columbus returns to her ancient faith and elects a Democratic mayor.

Tiffin, which has been going Republican for the past two years, returns to her ancient faith.

Dayton which for two falls past has gone Republican by 1,000 and 1,200 majority, elected a split ticket.

Toledo, a Republican stronghold, elects a Democratic Mayor and Police Commissioner.

In many Republican strongholds of the State it takes the official count to determine results.

### How the Trust Works Things.

The Ashland Wheel Company, holding a contract with the Commercial Wheel Company for the output of five years' steady running, has sold the trust their privilege of making wheels for the coming two years, the price being named as \$12,000. In consequence of the deal the Ashland Company will be cut out of any work save the making of wheel stock, such as rims, hubs and spokes, and as the demand for these is not overly rushing the prospects seem good for indefinite idleness with the plant.

### THE ELECTRIC RAILROAD.

The Trolley System Has Already Taken the Place of 400,000 Horses.

Six years ago there were no successful trolley railroads in existence. On the first of January, 1885, trolley wires stretched 9,000 miles of surface tracks, or more than two-thirds of all the lines in the country that may properly be termed street railroads.

As motive power for anything that runs on rails, the horse and the patient mule have about fulfilled their mission, for, of the 3,519 miles of street railroad not operated by the trolley, 662 miles are run by cable and 614 by steam motors, leaving only 2,243 miles over which the jolting horse car still rolls, tinkling along after the old style.

The total number of street cars now in use is 41,000, of which 23,477, or more than half, are electric. At least 400,000 horses would be required to haul these cars, were it not for the introduction of the trolley. At the beginning of the trolley extension the value of good railroad horses averaged \$125 each, but they have since been bought for from \$25 to \$40, or from one-fifth to one-third of their former value. As fast as the companies adopt electric power, they throw their useless horses upon the market at whatever price is offered.

### River News.

Philip Klipp is engineer now on the Buckeye State.

Rising here, and a big river may be expected if the rain extended up to headwaters.

Captain Sam Moore is now in charge of the City of Vevay in the Maysville trade, succeeding Captain Watt Shedd.

Down: Ruth, Stanley and Bonanza this afternoon. Due up to-night: Telegraph for Pomeroy and Carrollton for Pittsburgh.

Upper Mississippi river barons were recently looking over the Upper Ohio with a view of buying out the White Collar line, says an exchange.

The new steel towboat E. R. Andrews now has a battery of 6 fine steel boilers 28 feet long and 36 inches diameter with 2 flues each; and they are equipped with Sharp's patent boiler cleaners, which will keep them in splendid trim all the time. The Andrews has a vast amount of machinery aboard, and draws five feet of water. She cost \$75,000.

### PERSONAL.

**Income Tax Decision Yet.**

NEW YORK, April 8.—A special to The World from Washington says: An extraordinary conference of the justices at the United States supreme court was held yesterday to consider the income tax. Chief Justice Fuller's rough draft was further discussed, and the decision is reported to have been re-opened for arguments on certain features. This has given rise to the impression that the deadlock on the main points of the statute may be broken or the decision withheld for additional modification.

### KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

HON. BENJAMIN GWINN HARRIS, of Leonardtown, Md., died April 4th, aged ninety years. He was a brother-in-law of Dr. Thomas M. Moore, of Aberdeen. He was at one time the leading practitioner of law in Southern Maryland, and served with distinction in Congress during the period of the civil war.

The People's Building Association has declared a dividend of 6½ per cent., together with a return of monthly dues.

The death of Fannie Thompson, wife of Charles Thompson, colored, which occurred at her home April 4th, after a brief illness, deserves more than a passing notice. She was one of the few that was always faithful as servant, wife, mother and neighbor, ever ready to cheerfully lend a helping hand wherever called; and many are her friends, both white and colored, who sympathize with the father and eight children, left to mourn her death. FROM ONE WHO KNEW HER.

THE WHEELMEN COMING.

Arrangements Being Made For the Entertainment of the Kentucky Division.

The Kentucky Division, L. A. W., will hold its annual meeting in this city on June 14 and 15, and Maysville will of course extend the visiting wheelmen a warm welcome and the most cordial hospitality during their stay.

Last week the preliminary steps were taken in the arrangements for the approaching meet.

Another meeting will be held to-night in the parlors at the Central Hotel and the wheelmen of Maysville and all others interested are urged to attend.

Several merchants have already signified their interest in the matter by tendering subscriptions, and others will contribute handsome prizes to be contested for in the races.

In addition to the two or three hundred wheelmen who are expected, it is safe to say that during race-days big crowds will be attracted from the surrounding country.

The Committee on Finance, Messrs. James W. Fitzgerald, Thomas A. Keith and Thomas M. Russell, at to-night's meeting, will report what progress has been made.

Let all who feel an interest in the matter be present at to-night's meeting.

COMMONWEALTH'S ATTORNEY SALLEE came down from Greenup Saturday and spent Sunday in Maysville. The Jackson murder case is up for trial at Greenup but only seven jurors had been accepted Saturday out of 100 persons who had been examined.

MR. GEORGE BURROWS, who has been clerking at Miner's the past six years, left last evening for Cincinnati, to accept a position as salesman at Rollman & Son's shoe store. George's many friends regret his departure, and wish him well in his new home.

CINCINNATI Enquirer: "Colonel M. W. Williams, now of St. Louis, but born in Maysville, Ky., and a former resident of that place, was in the city, and visited the wharf Friday, inspected the Big Sandy, visited the Frisbie shops and other places, where he found old river friends."

THE first proclamation of the approaching marriage of Mr. Charles F. McNamara, of Flemingsburg, and Miss Anna Agnes O'Donnell, of this city, was announced at St. Patrick's Church yesterday; also of the marriage of Mr. John J. Fitzgerald and Miss Agnes Kane, of this city. The Fitzgerald-Kane marriage will take place on Wednesday, April 24th, and the McNamara-O'Donnell marriage on Thursday, April 25th.

IN a recent sermon, Sam Jones said that "whenever you see a fellow that has got more religion than he has sense, he is a fool; when you see a fellow with more sense than he has religion, he's a rascal. And it's mighty hard to split the difference. But when a fellow that has a good level head gets his will consecrated to God he will be a power anywhere. Good sense and good religion! That's the grandest compound in the world."

NO MODERN discovery or invention has excited more general interest than the new illuminant, acetylene. T. O'Conor Sloan, Ph. D., has prepared an article, published in the Scientific American, dealing with the commercial manufacture of this gas and its general adoption for lighting purposes. The production of the calcium carbide, from which the acetylene gas is made by simple treatment with water, bids fair to become a commercial process, and we have every reason to hope that the material will soon be produced by the ton. There is something fascinating in the idea of being able to produce a gas of about 300 candle power by so simple a process, says an exchange.

MR. J. W. LAWWILL, the ex-Maysvillian who was seriously injured some time ago by being thrown out of a buggy at Washington C. H., O., is getting along remarkably well, says the Herald of that city, until within the last two weeks, a relaxation of the left knee cap having developed, which renders very slowly locomotion, as he has but little control of the limb. His foot was badly swollen after the accident; but as he lay unconscious for three weeks, he did not know he was hurt, nor his physicians the extent of his injury on that part of the body. His physicians think, however, that the relaxed knee cap can be made to keep its place by the process of wrapping with a rubber bandage.

LADIES often have their pocket books stolen while on the street. They are very apt to leave them on the counter while shopping or lay them down in the cars when traveling, but the ideal safety chain prevents all these accidents. This little novelty can also be used either as a fan holder or watch chain. See it at Ballenger's.

SO EASY is it to make an imitation maple syrup, which equals and frequently excels the real article, that it has driven the Vermont maple syrup from the market, remarks the West Union Defender. A dispatch says that the orchards in that State are not being tapped this year. All you have to do is to boil clean corneobs and with the water surrounding them reduce sugar, white or brown, to a syrup with it. This is worth trying. Similar results can be brought about by using hickory bark.

MURDER CHARGED

TALK of Lynching a Lewis County Man Who is Accused of Killing His Wife.

VANCEBURG, KY., April 3.—The most exciting murder in the history of Lewis County was committed about seven miles below this city last Saturday night. The mystery which had excited the people to fever heat was solved to-day at the opening of a grave.

Mr. and Mrs. John Cornes had not been getting along well together for a long while. They lived with the husband's mother, and the latter had no affection for her daughter-in-law. Last Sunday morning Ham Monteith, a prominent citizen and neighbor of the Cornes, came into Vanceburg after a Coroner, stating that Mrs. Cornes had died during the night and that foul play was suspected.

Monteith returned and the woman was buried at 1 o'clock p. m. The husband during preparations for the burial acted with stolid brutality. He at first flatly refused to attend the body to the grave, giving as an excuse that he was hungry and had not eaten his dinner. He was finally induced to go and got to the grave yard after the wife had been buried.

Judge G. S. Hillis this morning sent out 'Squire R. H. Fisher to have the corpse disinterred and an inquest held. The grave was opened and the corpse taken out. The doctors found that the woman's neck had been broken and that her body was bruised. Fisher ordered the husband arrested.

Cornes and his mother were lodged in jail here to-night. All his neighbors to a man are against him, and feel that a rope is too good for him. The mother says she will die before she will tell anything.

Mob violence is anticipated. Cornes is related to some of the best people of the county.

FRANCIS JOHNSON, one of Cincinnati's oldest and most respected citizens, died Friday. He was a native of Ireland, and the Enquirer says he owned an interest in a distillery near Maysville at one time. In 1856 the firm changed hands, and young Johnson was left with a vast amount of whisky on his hands. This he moved to Cincinnati and stored it until after the war, when the advance in the market made for him a snug fortune.

ELECTRIC roads beat free turnpikes, but Messrs. John T. Martin & Co. beat them all. They are for the present giving with each suit of clothes sold for cash to the amount of \$5 and upward a watch running in good order, stem winder and setter. 'SQUIRE WILLIAMS, Colonel R. R. Maltby and Mr. J. H. Rice looked after Mason County's interests before the State Board of Equalization Saturday. The Board complimented the committee very highly and stated it made the best showing yet presented to the Board. The increase on land and personalty will very likely be cut from 12 to 10 per cent. and the increase on lots left at 4 per cent. The Board will settle the matter this week.

## GUN TESTS.

Were Better Not to Stand in Front of the Krag-Jorgenson Rifle.

WASHINGTON, April 8.—The ordnance bureau of the war department has been conducting a series of tests at the arsenal at Frankford, Pa., to determine the penetration of the Krag-Jorgenson rifle, of whose efficiency under all conditions, some doubts have recently arisen. The results of the experiments have now been made public.

All shots were fired over the 500-yard range and with a mean velocity of 1,967 feet. Nine different species of targets were used and five shots were fired at each, so that, if necessary, two of them could be abandoned as being rendered abnormal by accidents. The targets consisted of green oak, soft pine, a brick wall, moist sand, loam, coarse gravel, clay, clay and loam combined and sand and loam combined.

The bullets penetrated 6 1/2 inches into the green oak, they went 21 1/3 inches into the soft pine uninjured. The moist sand was penetrated to a depth of 18 1/2 inches and the loam admitted them 23 2/3 inches. The coarse gravel stopped its bullets at 12 inches. The sand and loam target and the clay target were penetrated 17 and 22 1/2 inches respectively and the clay and loam was entered for 22 1/2 inches.

The bullets were crushed into shapeless lumps against the brick wall, but not before they had penetrated 1 1/3 inches.

## OVERDUE VESSEL ARRIVES.

Cargo of Tin Shipped From Liverpool Reaches Astoria, Oregon.

ASTORIA, Or., April 8.—The long overdue British ship Cupica, with tin from Liverpool to Astoria, arrived at 1 o'clock yesterday afternoon. The docks were lined with people, and no sooner had the Cupica dropped anchor than a score of Captain Casson's friends climbed over the side of the vessel and congratulated him on his safe arrival.

Captain Casson states that the vessel was delayed by storms that drove her out of her course and by calms which lasted for days at a time. In the vicinity of Cape Horn, 500 cases of tin were jettisoned and more would have followed had they not been compelled to button down the hatches. Two sailors were injured by being thrown against the bulwarks during a storm. Captain Casson says that when only a few days out from Liverpool he feared he would never reach his destination.

The arrival of the Cupica has placed the canneries at some inconvenience, as they, with one or two exceptions, had given up the ship for lost and had duplicated their orders with American tinplate. The Cupica has 28,000 cases of tin on board.

## LEFT A MILLION.

Poor Young Woman Excites a Widow's Admiration, With That Result.

PORT JERVIS, N. Y., April 8.—Agnes Epplewhite is a poor young woman who earned her living during the summer months by musical recitals at the various hotels here. She now lives in Chicago. One of the guests last year was a Mrs. Hendricks, a wealthy Philadelphia invalid. She took a fancy to Miss Epplewhite, who often played for her, and two weeks ago the young woman was notified by Philadelphia lawyers that Mrs. Hendricks had died and left Miss Epplewhite \$1,000,000.

Mrs. Hendricks was a paralytic, and the numerous little kindnesses the young woman showed her, together with her musical talent, which the old lady greatly admired, made a soft spot in the widow's heart, and the big fortune left the girl is the result.

## Green Bay Ice Damages.

MENOMINEE, Mich., April 8.—The heavy northeast wind continues and the ice in Green bay is piling up on the shore in some places 30 feet high. Several additional docks were displaced yesterday. The Ann Arbor track between the slip and the St. Paul track is covered with ice in some places 20 feet high, completely cutting off traffic in the yards, while more or less damage has been done to warehouses, barns and boathouses. Should the wind continue long from the present quarter the damage to property will be great. The body of the ice extends out into the bay a distance of 20 or 30 miles and is from 12 to 16 inches thick.

## Five Buildings Burned.

NEWARK, N. J., April 8.—The works of the Croker-Wheeler Supply company, at Amherst, in East Orange, were destroyed by fire yesterday. It is estimated that the loss will foot up little short of \$100,000. Insurance, \$10,000. The origin of the fire is at present unknown. Before the firemen could get to the scene, the flames had gained great headway. Two of the seven buildings, however, were saved. A large number of men are thrown out of employment. Stored in these buildings was a considerable quantity of finished work.

## Fire Insurance Rates.

ST. LOUIS, April 8.—From present indications the fire insurance rates will soon be reduced to the 1893 standard, a 20 per cent reduction. Many large firms, it is understood, have placed their insurance in outside companies, and the loss to the local board of underwriters has been quite severe. The assertion is made that the underwriters have determined to amalgamate the salvage corps with the fire department, thus throwing the \$50,000 per annum expense of the corps upon the city.

## Finding a Way For Resuming Work.

FINLAY, O., April 8.—John D. Briggs of Cleveland has been appointed receiver of the Finlay Rolling Mill company, whose affairs were wound up last week on an attachment for \$40,000. A motion has been filed for the dismissal of that and other attachments, so that the receiver can take charge and it is thought operations will be resumed within a few days. Receiver Briggs is president of the company.

## AS WE SEE THINGS.

## INFLUENCE OF THE INNER LIFE ON THE EXTERNAL WORLD.

How an Individual or a Scene May Have an Entirely Different Appearance to Two Persons—Happiness and Sorrow Made by Ourselves.

There have been philosophers who declared that the earth on which we stand and the stars on which we gaze have no real existence, but are merely the outcomes of our inner selves. Perhaps the best answer to this is that the mind itself, at least that of most people, refuses to receive the idea. The difference between the me and the not me is too sharply defined in the inner consciousness to permit Bishop Berkeley's notion of taking root within us.

Yet we cannot afford to overlook the germ of truth which this idea contains. Though not literally the creation of our thought, the outer world is to each one of us largely that which we make it. Nature herself, in all her varied scenes, whatever she may be in reality, shows herself to us in the light which we throw upon her. One man looks at a landscape and sees land and water, grass and trees, hills and plains, and nothing more. Another, a farmer, sees the growing crops, the fallow land, the noxious weeds, the prospect for future tillage and the obstacles to be overcome. Another, with a painter's eye, sees every variety of form and color, proportion and perspective, harmony and contrast, beauty and sublimity. To the melancholy man all is tintured with gloom—a leaden pall covers even the gayest scenes—while to the joyous everything seems bright and glad, and even the dreariest of November days only suggests the radiant sunlight that is sure later on to struggle through the clouds.

So with the slights of a city. For each of us as they take on the aspect of our own mental condition. How differently they impress the citizen who has spent his life among them from the foreigner who views them for the first time! What a different message the stately and magnificent buildings bear to the absorbed man of business and to the architect who appreciates every detail of their construction!

If there is so wide a divergence in the aspect which inanimate things have for us, the difference is still greater in the way we regard the men and women by whom we are surrounded. Character is a complex thing, difficult to detect, impossible to fathom, yet we presumptuously venture to gauge and pronounce upon it with the smallest modicum of knowledge. It is curious to notice how differently the same person will impress various individuals. His friend will perhaps see no fault in him, his enemy no virtue. One will put faith in him; another will suspect his every action. One will deem him cold hearted; another will think him affectionate and kind. It must be that their own personalities are reflected in him, and that to a certain extent he does thus become for a time, while under their influence, what they suppose him to be always. It is certainly true that the good and gentle find far more goodness and gentleness in the world than those who are deficient in such qualities. It is the selfish man who is the keenest to detect selfishness in others; it is the overbearing who complain most of the arrogance and pride with which they are met, and the unjust who murmur at the injustice they receive. On the other hand, the loving and sympathetic discover love and sympathy everywhere; the noble and true bring to light nobility and truth which might otherwise be hidden. Thus to a large extent we develop the character of those we meet. By a subtle

magnetism we draw like to like and evolve out of other personalities the characteristics of our own.

Even the outward circumstances of life are largely what we ourselves make them. We are accustomed to consider prosperity a blessing and adversity a curse, but quite frequently they change places. It is the spirit in which they are received that determines their result. The rich and self indulgent man, surrounded by luxury and opportunity, may be far less happy than his poorer neighbor who brings industry, fidelity and generosity into constant exercise. The same privileges that raise one young man to honor and usefulness are a snare and temptation to another. The same recreation that invigorates one enfeebles another. The same sorrow that softens one and leads him out of self to works of kindness and helpfulness prostrates another and renders him valueless. It is that which is within a man that so acts upon the externals of life as to decide their results to him, and through him to others.

If this be so, then happiness or wretchedness is largely in our power, and most of our complaints only bear witness to our own remissness. We may rightly recognize the futility of struggling against outward events which we cannot control, but we can always bring to bear upon them such a spirit and influence as shall turn evil into good and bitter into sweet.—Philadelphia Ledger.

## SPIT IN EACH OTHER'S FACES.

An Arkansas Legislator Meets the Governor in a Hotel Lobby.

LITTLE ROCK, April 8.—The spectacle of an honorable member of the Arkansas legislature, livid with rage, spitting in the face of the governor of this commonwealth, quickly returned by a violent emission of executive saliva upon the angered features of the lawmaker and a flourish of firearms in the hands of the governor, was witnessed in the lobby of Gleason's hotel here yesterday afternoon, and this was the result of the sensational charges of bribery in connection with the railroad commission bill sprung in the house of representatives Saturday by Mr. Yancey of Phillips county.

Mr. Jones of Marion county, one of the principals in the altercation of yesterday afternoon, on Saturday arose to a point of personal privilege and denounced Governor Clarke as being at the bottom of the charges. He said that Governor Clarke was a demagogue and was going around like the assassin in the night with a knife, stabbing in the back men who were his peers.

Yesterday afternoon Governor Clarke met Jones in the lobby at Gleason's and requested a private interview with him. Jones replied that he would accompany the governor nowhere, and that if the chief executive had anything to say to him he must make it known there. Hot words followed, and in a fit of anger Jones spat in the governor's face.

Governor Clarke, trembling with anger, retumed the insult, and as quick as a flash had drawn his revolver and the difficulty might have resulted in bloodshed but for the quick action of bystanders who disarmed Governor Clarke. The governor was later arrested by a constable and released on his own recognizance. He will, he says, plead guilty to the charge of assault. Further trouble may ensue.

## ARMENIAN AFFAIRS.

The British Ambassador Holds a Conference With the Sultan.

CONSTANTINOPLE, April 8.—Sir Philip H. Currie, the British ambassador, has had two long conferences with the sultan recently on Armenian affairs.

The report that the porte had prepared a scheme of Armenian reform was premature, but the government has decided to appoint a high commission of inquiry with a Turkish president to discuss reforms for Armenia.

The report above mentioned as premature was to the effect that the Porte had decided to unite three of the Armenian provinces under a governor general, under whom 15 state educated Armenians would be appointed caimakans, and 10 Turks mutessers. It was said that either Turkish Pasha, late governor of Crete, or Chakir Pasha, formerly ambassador to Russia, would be

given the post. The Porte had decided to unite three of the Armenian provinces under a governor general, under whom 15 state educated Armenians would be appointed caimakans, and 10 Turks mutessers. It was said that either Turkish Pasha, late governor of Crete, or Chakir Pasha, formerly ambassador to Russia, would be

## Train Robbers Fighting With Fire.

WICHITA, Kan., April 8.—The Rock Island train robbers are now in the Glass mountain regions and have set the prairie on fire behind them in order to baffle their pursuers. Tires being a high wind the fire has covered an immense area of territory and the marshals' posse can not advance.

## Bandits Captured.

DENVER, April 8.—William Connors, leader of the gang of bandits which terrorized and robbed the gambling house of \$615, has been captured in this city. He confessed and returned about two-thirds of the booty. The other two members of the gang were captured at Ashland Junction.
